

Cook Inlet Pipeline Integrity Assessment

Update to Cook Inlet Regional Citizens Advisory Council

September 7, 2018

Today

- Project refresher
- Status update
- Next steps

Goals

- Anticipate potential problems as Cook Inlet pipeline infrastructure ages
- Recommend risk reduction measures for implementation *before* further loss-of-integrity issues
- Ensure high quality recommendations by gaining input from *experts, operators,* and the Cook Inlet *public*

Scope

- Cook Inlet area (on land & subsea)
- Pipelines that transport oil, gas, or three-phase liquid *associated with oil production*
- Preventing & promptly detecting spills (age, material, maintenance/integrity management, leak detection, security)
- So...**not** including:
 - Refined product
 - Gas lines associated with gas production or commercial distribution
 - Spill preparedness or response

Scope

Phases

Phase 1 – Describe the regulatory framework for pipelines and inventory pipelines in Cook Inlet

- **Phase 2** – Validate and improve the inventory with the pipeline operators and investigate loss of integrity events
- **Phase 3** – Expert panel reviews information collected, interacts with the operators and public, and develops and documents their recommendations

Regulatory Status

- Preliminary draft on hold
- PHMSA Task Force concluding; public report forthcoming
- Review results and summarize in report
- PHMSA and ADEC review language

Inventory

- Maps
- Database – keyed on individual pipeline
 - Administrative
 - Physical
 - Regulatory
 - Integrity Management
 - Loss of Integrity Incidents

Operator Engagement

- Initial meetings complete:
 - Hilcorp
 - Cook Inlet Energy
 - Furie
- Next meeting:
 - Andeavor

Next steps

- Complete regulatory overview w/ PHMSA & ADEC input
- Complete inventory w/ operator input (& agency information re: spills?)
- Move to expert panel/public process (TBD)
