

I am in favor of the recertification of CIRCAC.

As a 47 year Kodiak resident I was here when the Exxon Valdez went up on Bligh Reef.

I saw the destruction of Alaskan wildlife and habitat.

I saw the disruption to Alaskan lives.

it is only through public, community oversight and vigilance that industry and government will work for the best safety measures possible.

Both CIRAC and PWSRCAC provide a valuable service to Alaska and the USA.

thank you.

Bob Brodie
