Comment

Dear Commander McAllister:

Please accept these comments on behalf of Cook Inletkeeper and its more than 2500 members and supporters in southcentral Alaska on the Cook Inlet Regional Citizen Advisory Council's application for re-certification (Docket Number - USCG-2017-0289).

Inletkeeper has a long history with CIRCAC; sometimes our relationship has been positive, while at other times it's been highly contentious. In the latter instances, a primary cause of friction could usually be traced back to CIRCAC's original funding formula under OPA 90.

Today, that funding formula has changed, and as a result, Inletkeeper now support's CIRCAC's re-certification.

Thank you for considering this comment, and feel free to contact me with any questions.

Bob Shavelson
