Re: USCG-2014-0414; Cook Inlet RCAC Recertification

Dear Admiral:

On behalf of Crowley, I would like to express our support for the recertification of the Cook Inlet Regional Citizens Advisory Council (Cook Inlet RCAC).

Cook Inlet RCAC has been at the forefront of important initiatives to improve Cook Inlet's navigational safety and oil spill prevention and response capabilities, as well as advance our scientific understanding of the region's environment to better enable us to protect its wildlife and natural resources from the harmful effects of spills. Cook Inlet RCAC has achieved significant accomplishments in the areas of environmental monitoring, and oil spill prevention, response and preparedness, a result of a concerted effort to foster and develop a partnership with industry, local, state and federal governments and the citizens of Cook Inlet.

We value the organization's ability to represent and bring together a diverse group of stakeholders with a broad range of interests. Our relationship with Cook Inlet RCAC has been important in bringing stakeholders together to improve navigation safety in the region. Cook Inlet RCAC is an important participant in ongoing efforts to improve operations and safety in Cook Inlet. We welcome opportunities to work together with the Board of Directors, Committees and staff and share information that can make oil facility operations and marine transportation in the Inlet safer.

We look forward to continuing this positive relationship and respectfully request the Coast Guard approve Cook Inlet RCAC's application for recertification.

Sincerely,

Bruce Harland  
Vice President Crowley Solutions
